## Nomisma

<http://nomisma.org/>

Nomisma.org is a collaborative project to provide stable digital representations of numismatic concepts according to the principles of [Linked Open Data](#). These take the form of http URIs that also provide access to reusable information about those concepts, along with links to other resources. The canonical format of nomisma.org is RDF/XML, with serializations available in JSON-LD (including geoJSON-LD for complex geographic features), Turtle, KML (when applicable), and HTML5+RDFa 1.1.

While the URIs provided by nomisma.org are stable, the project is in progress and subject to constant expansion and ongoing correction. This is particularly the case for the information provided about each nomisma.org identifier.

The information provided by nomisma.org has been provided by a wide community of scholars and insitutions.

## Digital Numismatics

The primary aim of the WG Digital Numismatics is to encourage the implementation of the concepts of Linked Open Data (LOD) and the Semantic Web in numismatics.

### Moesia inferior, Thrace, Mysia, Troas

Corpus Nummorum Online is an open access numismatic web portal that aims to collect and present comprehensive regional datasets of Greek and Roman provincial coinage and offers a research tool for their processing and analysis. The material is arranged by regions and mints, as well as by chronology and types. At present, you can browse through and search for coins and coin types minted in Moesia Inferior, Thrace, Mysia, and the Troad.

### Coin of the Month

#### Abdera

The April 2020 Coin of the Month was selected by Desirée Brunsch, student assistant in the Thrace project section in the Berlin Coin Cabinet. She comments on this coin from the coastal Thracian city of Abdera: "On the obverse you can see a very detailed griffin with a cicada beneath its claws, a legend and a border of dots. This suggests a high level of skill in creating the die and in production. Why is there a quadratum incusum on the back that requires little skill? What is the significance of the quadratum incusum? Why didn't they choose a more elaborate motif?"

The Coin of this Month is presented by Angela Berthold
